Overview

The Second biggest state of South America— Argentina has a surface of 2.8 million square kilometers. The country has 33 million inhabitants and nearly half of them live in the surroundings of Buenos Aires, one of the most cosmopolitan cities of the world. Argentina is a fascinating land of contrasts where the exceptional is almost commonplace. It's home to an abundant wildlife, enjoys a unique culture, and delights in an astonishing variety of landscapes from tropical rain forest in the north to the remote vastness of the Antarctic in the South. Three big landscapes form the country: the Andes in the west, the northern and western flatland as well as the wide plains of Patagonia in the South. The country that is stretched in length has three climatic zones: tropic in the north, moderate in the center and polar in the extreme South. The Indian aborigines only live in the north-western Andean region and in the north-east province of Misiones. The rest of the population is mainly composed of European immigrants. The official language is Spanish, but in bigger towns English is also quite common.

Squeezed between Andes and Pacific is the country of Chile with a maximum width of 44 kilometers. This country is a unique thin, 4.300 kilometers long coastal stripe. For many people, Chile is still a white spot on the map, but behind there lies an extremely rich and original nature beauty that makes this country with its friendly population a very attractive destination. It units the driest desert of the world, abundant forests as well as fantastic glaciers and fjords. The European influence can be noticed in the towns, by the people with their culture and politeness. That is why Chile today is one of the highest developed countries of South America in which all 'works'.

Your Itinerary

DAY 1

BUENOS AIRES

- Meals: Dinner
- Transfer international airport Buenos Aires – Hotel
- Dinner & Tango show at La Ventana Tango House (5h) - **On shared basis**

Upon arrival in Buenos Aires, transfer from the airport to the hotel.

Buenos Aires is not only the capital of Argentina; it is also one of the 10 most important metropolises in the world and the center of the political, economic and intellectual life of the country. This cosmopolitan city - with great European cultural influence - displays a refined taste in its cooking, in its "boutiques" and in the elegance of its inhabitants. Almost 12 million people live there and can enjoy the plentiful night life visiting "tango" bars, cabarets, discotheques, restaurants or eternally open bars. During the day, a wide variety of attractions is offered: museums, art galleries, tasteful shops, fascinating antiques, large green areas, parks, wide tree lined boulevards, clubs and sporting events. The Italian-Spanish descent of the inhabitants has formed this modern metropolis. Feel the flair, above all in the Italian old quarter La Boca and in the wide streets with cafes from the turn of the century. At the Plaza de Mayo, in the political center of town, is the starting point of this tour through this exciting capital. The widest street of the world, the very famous opera house and also the shopping street Florida make Buenos Aires unforgettable.

In the evening, you will be taken to the Tango House La Ventana, because visiting a Tango Show is a MUST when you are in Buenos Aires! La Ventana is one of the most authentic tango houses and is located in the San Telmo neighborhood, the heart of the tango scene in Buenos Aires.

The Tango tradition started at the end of the last century, developing from a mixture of various rhythms, which were originally danced in the poorer quarters. In the beginning, Tango was only danced by men, accompanied by flutes, violins and guitars. The flutes were later replaced by the "Bandoneón" (a type of accordion), which gave the tango its distinctive flavor.

During the excursion you can opt between a tango lesson with specialized teachers or a wine tasting session of different Argentinean wines. Afterwards, you will enjoy dinner (which includes three courses and non-alcoholic beverages as well as half a bottle of wine or two glasses of beer per person) and a tango show.

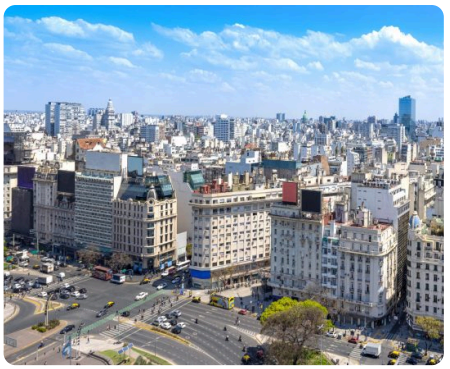

After the tango show return back to the hotel. Arrival at the hotel around midnight.

***Remarks:** The excursion is shared with international travelers. The transfers hotel-tango house and vv. take place with other international travelers from different hotels and Spanish speaking driver. The tango lesson/wine tasting session is bilingual (Spanish/English)*

The mausoleum of General San Martin (our National Hero) is located inside the Cathedral, and Pope Francisco used to celebrate religious services in this Cathedral when he was cardinal of Buenos Aires city.

The mausoleums and pantheons reflect the architectural diversity emerging from the different cultural tendencies Argentina incorporated in its formation as a nation. The cemetery is considered to be one of the most impressive monuments of Argentina. 30min stop includes visit of Eva Duarte`s grave, known as Eva Perón (Evita).

  Afternoon and evening free at leisure – available tours are optional.

In the morning, you will go on a half day tour to the Tierra del Fuego National Park, where you will get the impression as if time goes slower than anywhere else. The long stormy winters and the width of the sky formed a very simple and modest way of living. The National Park is crossed by many rivers which flow into the Beagle Channel.

Drive through the park to enjoy the landscapes and have a little walk. In the afternoon transfer from Ushuaia city in northeast direction along National Road 3 and provincial route J to Estancia Harberton, it's a rustic way with unpaved roads in some sections of the trip.

Estancia Harberton is located 90km (56mi.) from Ushuaia city and on the shores of Beagle Channel. Upon arrival at Harberton you can take a look around the farm and learn something about its origins. The estancia was founded in 1886 by the Anglican missioner Thomas Bridges and it is the oldest building on the island.

Later on, you will take a short sailing trip (15min one way) aboard semi rigid boats in order to cross to Martillo Island. At this point you will have the chance to watch a colony of Magellan and Gentoo penguins and walk close to them. First penguins arrive at Isla Martillo by late October (just few couples can be seen). Penguins share their habitat with different birds, so you will see during the walking tour: skuas (main penguin predator), albatrosses, petrels, cormorants, and other birds from the area.

Eventually the ice cannot resist the enormous pressure of the water and crashes with a frightening noise. One can watch this glacier spectacle every day when single ice blocks fall into the lake. Considering that the glacier is 5 km long and 70 m high one can imagine the noise this makes. Here we will have 2 hours to experience the glacier before driving back to Calafate.
